

Criterion and Audio Cine Films Inc., License Agreements

CRITERION AND AUDIO CINE FILMS INC., LICENSE AGREEMENTS

Canadian copyright requires that public performance rights be obtained in order to show a film in a classroom or other venue on campus.

The Banff Centre has signed license agreements with [Criterion Pictures](#) and [Audio Cine Films Inc.](#) which allow films covered by these agreements to be shown at The Banff Centre for educational purposes.

Films covered by the agreements must be legal copies and may be obtained from a library, video/DVD store, or your own personal collection.

Below are procedures to follow to determine if a film is covered by one of these two license agreements:

Audio Cine

The Audio Cine Films Inc., license agreement includes all films listed on the [Audio Cine website](#). Films can be searched by title, director and genre.

Criterion

The Criterion license agreement includes all films from the studios listed on [Criterion's website](#) with the exception of films from Mongrel Media.

For more information, contact the library which separates our video collections by those where we have obtained the public performance rights and which titles can only be viewed in the library.
